

What does the Incidents Per School graph show?

Created by Corey Tutewiler

Last updated Apr 04, 2016

Incidents occur when we find inappropriate content sent to, or by, students. You can view the total number of incidents by school, or view the average amount of incidents across all schools.

- + View the average number of incidents per school.
- + In the left panel, a list of schools will display. Select the square box to the left of a school to remove it from the graph on the main display.
- + On the graph, hover over the bars to see more details
- + Select the More details drop-down to view information on individual incidents.
